Hi Howard

Thanks so much for talking to her. I think we do have interest but have not yet had the call with NCI and Guardant, which is later this month. I actually had spoken with Adham Jhuri this morning with Natera too who called snooping for details haha and while I did not obviously provide those, I did mention there could be an opportunity to collaborate down the road soon here, and he also shared that interest from the Natera side. Any conversations would need to be after the NCI Guardant call which is soon to be scheduled.. happy to talk further with their team but not sure just yet on timelines and the ability to commit until further discussion with the NCI
Van

I have had a few emails back and forth with Minetta Liu CMO at Natera. She would be willing to discuss running samples from Cobra. Is this possible? Are you interested in having a call?
